Counsel,

Pursuant to PR 3-6(a)(2), Defendants are serving amended invalidity contentions, including an additional prior art reference for U.S. Patent No. 7,177,369. Upon receiving the Court's Preliminary Constructions on the morning of the day of the Claim Construction hearing, Defendants began searching for additional prior art that was consistent with the Court's construction, which was not proposed by either party.

The Keller reference that is the subject of this amendment was located as part of that search after the Markman hearing, and was produced last night, and discloses this limitation under the Court's claim construction.

Thanks,
Sajid
